EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Page 11, Line 19: Please delete the first occurrence of the word 'behind'.
- Page 13, Line 13: Please delete the first occurrence of the word 'both'.

2. The following is an examiner's statement of reasons for allowance:

The inventive property of this application at its most basic has been thought of before. The obstacle detection system taught by **Shisgal et al** [U.S. 5,574,426] includes an external indicator (Nos. 18 and 20) mounted to the towed vehicle. However, these indicators are not mounted at the front end of the body as recited in the claims. This difference is considered unobvious in light of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Robison [U.S. 4,277,804] presents an undistorted rearward view of a vehicle.

Hargis [U.S. 4,857,807] teaches an auxiliary light module for vehicles.

Schaible et al [U.S. 6,114,950] uses an ultrasonic transceiver for a proximity-warning device.

Pietsch et al [U.S. 6,604,592] prevents damage to a vehicle while traveling in reverse.

Payne [U.S. 6,693,524] uses video cameras for a vehicle backup monitoring system.

Mayor [U.S. 6,737,962] includes an alarm system with audio and visual devices.

Lesesky et al [U.S. 6,799,814] communicates the status of one or more subsystems on one or more trailers.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John A. Tweel, Jr. whose telephone number is 571 272 2969. The examiner can normally be reached on M-F 10-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jeff Hofsass can be reached on 571 272 2981. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
